

**BRIEF INFORMATION
on the Investment Project**

Code of the project	1001
Field of activity	Electroenergetics
Project title	Construction of new steam-gas plant in Sumgait with capacity of 400-500 MVt
Project description	Due to old and inefficient equipment, Sumgayit HPS-1 and HPS were laid off. It is expected to join additional power of 500 Mwt (two gas turbines with 150-170 capacity and one steam-gas turbine). Owing to construction of this plant, the following issues will be solved: increase of power generation, increase of reliability of overall function of energy power, attaining wholesome fuel economy, environmental protection in Absheron region where acute deficit of electric power is present.
Required investment (in USD)	300 000 000
Place of implementation	Sumgait
Potential markets	Local market
Legal status	State organization
Additional Information	Feasibility study on the project has been performed and the state guarantee can be given.

BRIEF INFORMATION
on the Investment Project

Code of the project	I002
Field of activity	Electroenergetics
Project title	Construction of new second 400 MWt steam-gas unit in "Shimal" Power Station
Project description	Improving technical economic indices of the energy system of Azerbaijan at the expense of decreasing flow of electric energy from western region of the Republic to Absheron region as well as reducing fuel consumption. At present, one 400 MWt steam-gas is under exploitation. At the same time, construction of the second block is necessary at Shimal power station.

Required investment (in USD)	273 000 000
------------------------------	-------------

Place of implementation	Western and Absheron regions
-------------------------	------------------------------

Potential markets	Local market
-------------------	--------------

Legal status	State organization
--------------	--------------------

Additional Information	Feasibility study on the project has been prepared. State guarantee can be given for financing of the project.
------------------------	--

Code of the project	I003
---------------------	------

Field of activity	Melioration and irrigation
-------------------	----------------------------

Project title	Construction of Takhtakorpu water reservoir
---------------	---

Project description	Construction of Takhtakorpu reservoir and creation of a reservoir with 280 mln. m3 capacity
---------------------	---

Required investment (in USD)	138 300 000
------------------------------	-------------

Place of implementation	Aghjabedi
-------------------------	-----------

Potential markets	Local market
-------------------	--------------

Legal status	State Executive Body
--------------	----------------------

Additional Information	State guarantee can be given for financing of the project. Initial calculations on the project have been made.
------------------------	--

BRIEF INFORMATION
on the Investment Project

Code of the project	I004
Field of activity	Melioration and irrigation
Project title	Construction of Takhtakorpu - Jeyranbatan canal (120 km)
Project description	Reconstruction and building of the canal
Required investment (in USD)	86 200 000
Place of implementation	Jeyranbatan
Potential markets	The Republic of Azerbaijan
Legal status	State Executive Body
Additional Information	State guarantee can be given for financing of the project. Initial calculations on the project have been made.

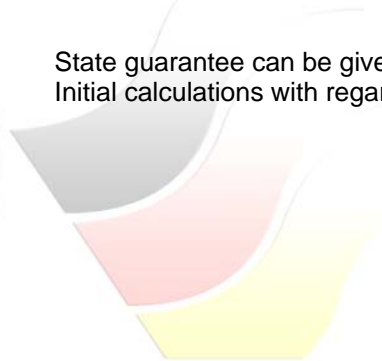

BRIEF INFORMATION
on the Investment Project

Code of the project	I005
Field of activity	Electroenergetics
Project title	Reconstruction of "Azerbaijan" Power Station
Project description	<p>Increasing power and reliability of Azerbaijan SRPS.</p> <p>The following are the constituents of the project:</p> <ul style="list-style-type: none">- At present, two funnels are under exploitation at the station. The surface of one of them is covered with silicium-concrete slabs. The last inspection of the funnel found out it is inadequate. Reconstruction-repair works for the funnel are necessary.- According to the project of the station, construction of low-level intakes was intended in the cooling water system. Nevertheless, while building the station, construction of these intakes was not completed. This does not allow the station to function at its full capacity. For this reason, construction of the low-level intakes is an important part of the implied reconstruction work.- At present, power of 1-8 power blocks that are being exploited, is much lower than the project indexes. Restoration of full power of these blocks must be contemplated within the bounds of the reconstruction work.
Required investment (in USD)	68 000 000
Place of implementation	Mingachevir
Potential markets	Local market
Legal status	State organization
Additional Information	State guarantee can be given for financing of the project. All documents (records) regarding the project have been worked out.

BRIEF INFORMATION
on the Investment Project

Code of the project	I006
Field of activity	Melioration and irrigation
Project title	Construction of Kur-Mugan canal for soil irrigation in Saatli and Sabirabad regions
Project description	Construction of 110 km long irrigation canal in the regions and improvement of water supply for 3500 hectares area.
Required investment (in USD)	62 000 000
Place of implementation	Saatli and Sabirabad regions
Potential markets	The Republic of Azerbaijan
Legal status	State organization
Additional Information	State guarantee can be given for financing of the project. Initial calculations with regard to the project have been made.

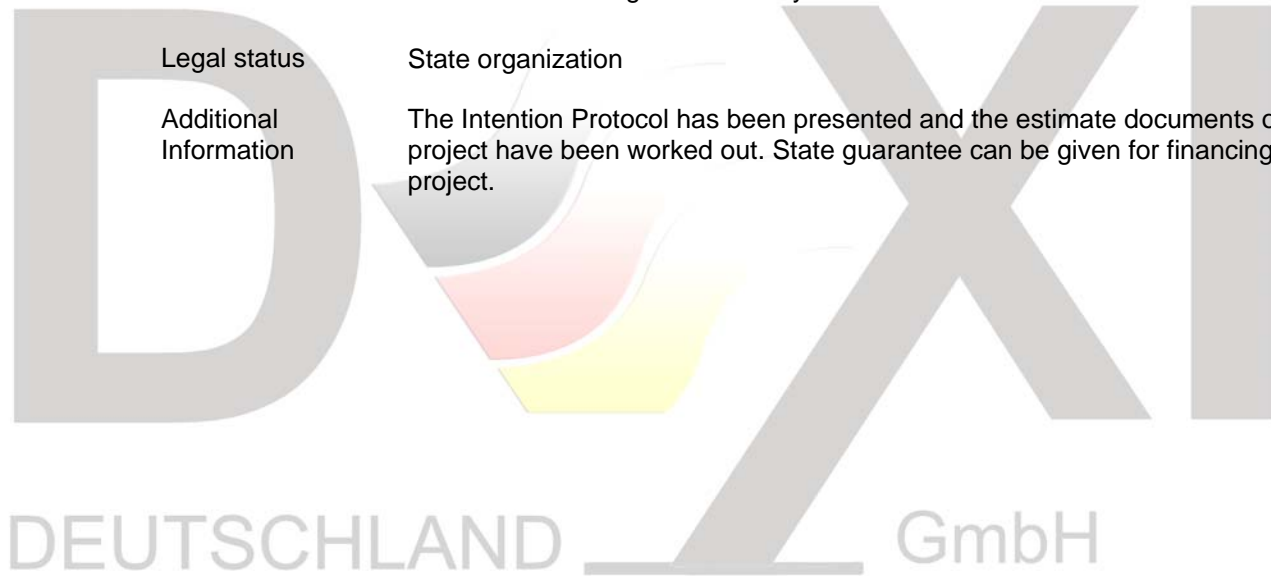

D **XI**

DEUTSCHLAND GmbH

BRIEF INFORMATION
on the Investment Project

Code of the project	I007
Field of activity	Highways
Project title	Reconstruction of Ujar-Ganja highway
Project description	Reconstruction and improvement of Ujar-Ganja highway (141.8 km) which is a part of the "Great Silk Way". Ensuring economic development of Ganja and the regions located in this area.
Required investment (in USD)	61 400 000
Place of implementation	Ujar-Ganja
Potential markets	The countries using the "Silk Way"
Legal status	State organization
Additional Information	The Intention Protocol has been presented and the estimate documents of the project have been worked out. State guarantee can be given for financing of the project.

DEUTSCHLAND GmbH

BRIEF INFORMATION
on the Investment Project

Code of the project	I008
Field of activity	Highways
Project title	Reconstruction of Shorsulu - Masalli highway
Project description	Restoration and reconstruction of the state boundary highway
Required investment (in USD)	58 000 000
Place of implementation	Shorsulu - Masalli
Potential markets	The Republic of Azerbaijan
Legal status	Join-stock company
Additional Information	State guarantee can be given for financing of the project. Initial calculations on the project have been made.

BRIEF INFORMATION
on the Investment Project

Code of the project	I009
Field of activity	Melioration and irrigation
Project title	Construction of Valvalachay - Takhtakorpu segment of Samur - Absheron canal
Project description	Reconstruction of irrigation system in Samur and Absheron canal, increasing drawoff capacity of the canal.
Required investment (in USD)	48 000 000
Place of implementation	The territory around the Valvalachay - Takhtakorpu branch of Samur - Absheron canal
Potential markets	The Republic of Azerbaijan

Legal status State organization

Additional Information State guarantee can be given.

Code of the project I010

Field of activity Urban water supply

Project title Sewage treatment

Project description Reconstruction of water treating station located in Hovsan and prevention of environment pollution.

Required investment (in USD) 35 000 000

Place of implementation Baku

Potential markets Population of Baku

Legal status State Executive Body

Contact details Baku Sewerage Department

Additional Information Feasibility study has been performed. It is possible to participate in the tender on construction works.

BRIEF INFORMATION
on the Investment Project

Code of the project	I011
Field of activity	Highways
Project title	Reconstruction of Alat - Astara highway
Project description	Restoration and reconstruction of the state boundary highway.
Required investment (in USD)	40 000 000
Place of implementation	Alat - Astara
Potential markets	Local market

Legal status Join-stock company

Additional Information

State guarantee can be given for financing of the project.
Initial calculations on the project have been made.

Code of the project

I012

Field of activity

Highways

Project title

Reconstruction of Siyazan - Guba highway

Project description

Restoration and reconstruction of the state boundary highway.

Required investment (in USD)

38 000 000

Place of implementation

Siyazan - Guba

Potential markets

Local market

Legal status

Join-stock company

Additional Information

State guarantee can be given for financing of the project.
Initial calculations on the project have been made.

BRIEF INFORMATION
on the Investment Project

Code of the project I013

Field of activity Highways

Project title Reconstruction of Alat - Salyan highway

Project description Restoration and reconstruction of the state boundary highway.

Required investment (in USD) 37 500 000

Place of implementation Alat - Salyan

Potential markets Local market

Legal status Join-stock company

Additional Information State guarantee can be given for financing of the project. Initial calculations on the project have been made.

Code of the project I014

Field of activity Highways

Project title Reconstruction of Gazimammad-Kurdamir highway

Project description Reconstruction and improvement of Gazimammad-Kurdamir highway (80.6 km), passing across Azerbaijan part of the "Silk Way", ensuring economic development of the lowland regions of the country.

Required investment (in USD) 37 200 000

Place of implementation Gazimammad and Kurdamir regions

Potential markets The countries using the "Silk Way"

Legal status Join-stock company

Additional Information State guarantee can be given for financing of the project.

BRIEF INFORMATION
on the Investment Project

Code of the project I015

Field of activity Highways

Project title Reconstruction of Lankaran - Astara highway

Project description Restoration and reconstruction of the state boundary highway.

Required investment (in USD) 37 000 000

Place of implementation Lankaran - Astara

Potential markets The countries using the "Silk Way"

Legal status Join-stock company

Additional Information State guarantee can be given for financing of the project.
Initial calculations regarding the project have been made.

Code of the project I016

Field of activity Highways

Project title Reconstruction of Masally - Lankaran highway

Project description Restoration and reconstruction of the state boundary highway.

Required investment (in USD) 34 500 000

Place of implementation Masally - Lankaran

Potential markets Local market

Legal status Join-stock company

Additional Information State guarantee can be given for financing of the project.
Initial calculations regarding the project have been made.

BRIEF INFORMATION
on the Investment Project

Code of the project	I017
Field of activity	Highways
Project title	Reconstruction of H.Z.Tagiyev -Siyazan highway
Project description	Restoration and reconstruction of the state boundary highway.
Required investment (in USD)	28 000 000
Place of implementation	H.Z.Tagiyev -Siyazan highway
Potential markets	The Republic of Azerbaijan

Legal status Join-stock company

Additional Information State guarantee can be given for financing of the project.
Initial calculations regarding the project have been made.

Code of the project	I018
Field of activity	Infrastructure
Project title	Reconstruction of sewerage and water provision systems in small towns

Project description Being used over a long period of time, sewerage and water supply systems in towns and regions are out of condition and they do not meet accepted sanitary-hygienic standards. From this point of view, ensuring sanitary-hygienic health of the city, provision of high-level utility service to the population by carrying out changes in the field of management and reconstruction work.

Required investment (in USD) 26 450 000

Place of implementation Towns and regions of the country

Potential markets Population of towns and regions

Legal status State Executive Body

Additional Information State guarantee can be given for financing of the project.
Initial calculations regarding the project have been made.

BRIEF INFORMATION
on the Investment Project

Code of the project I019

Field of activity Water resources and irrigation

Project title Flood protection

Project description The goal of the project is to ensure protection of the lands effective from agricultural point of view from flood, prevention of soil erosion and increase of agricultural productivity.

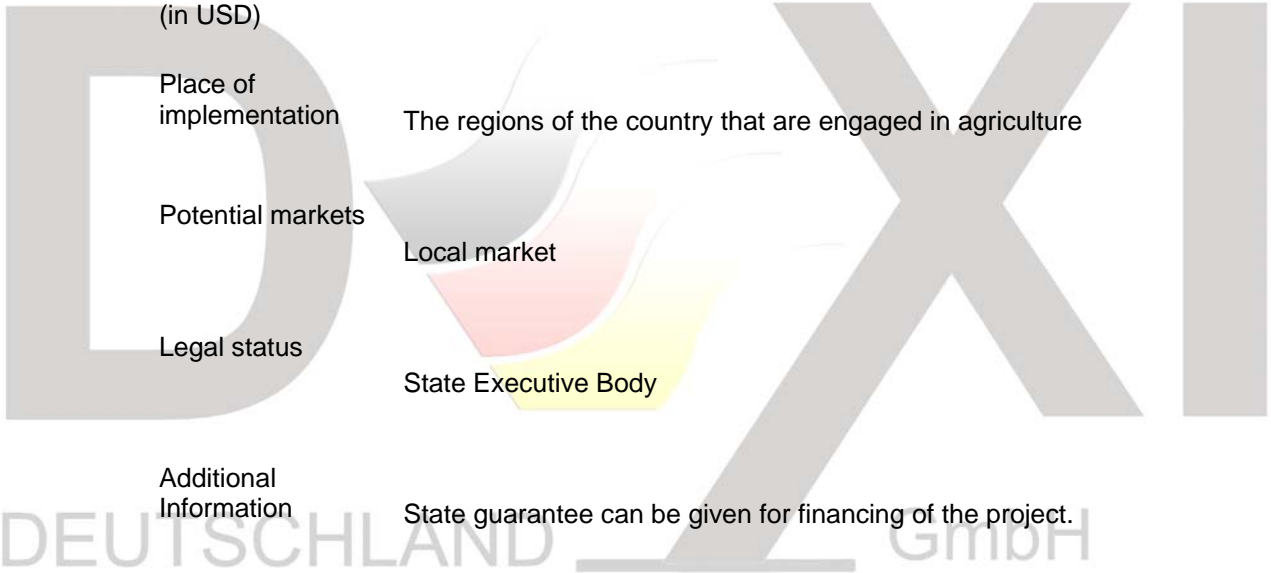

Required investment (in USD) 25 300 000

Place of implementation The regions of the country that are engaged in agriculture

Potential markets Local market

Legal status State Executive Body

Additional Information State guarantee can be given for financing of the project.

BRIEF INFORMATION on the Investment Project

Code of the project	I020
Field of activity	Electroenergetics
Project title	Reconstruction of water system, power generation and increase of their reliability in Mingachevir
Project description	<p>The aim of the project is to improve extraction and reliability of electric power. The following are the constituents of the project:</p> <p>Replacing physically and morally old and inefficiently functioning units (aggregate) of Mingachevir hydroelectric power station, with new ones;</p> <p>Replacing all the three physically and morally old and inefficiently functioning units (aggregate) - together with auxiliary equipment - of Varvara hydroelectric power station, with new ones, sound repairing of hydraulic engineering plants, land section and dams.</p>

Required investment (in USD)

25 000 000

Place of implementation

Mingachevir

Potential markets

Local market

Legal status

Additional Information

All project documents regarding reconstruction have been prepared. The reconstruction work in 4 of 6 available hydro-aggregates is completed; water turbines are available for the rest 2 aggregates.

BRIEF INFORMATION
on the Investment Project

Code of the project	I021
Field of activity	Transport
Project title	Construction of bridge on Astara river
Project description	The bridge over Astara river does not meet the modern requirements and needs to be repaired. Construction of a new bridge is required. The main purpose of the project is to ensure normal traffic of the lorries coming from Iran and the international lorries passing en route through Astara boundary as well as normal passage of these vehicles through customs post.
Required investment (in USD)	22 000 000
Place of implementation	Astara region
Potential markets	Local and foreign (Iran) markets
Legal status	Join-stock company
Additional Information	State guarantee can be given for financing of the project. The executor and the project owner will be determined by tender. Initial calculations on the project have been made.
Code of the project	I022
Field of activity	Highways
Project title	Reconstruction of Guba - Russia highway
Project description	Restoration and reconstruction of the state boundary highway.
Required investment (in USD)	20 000 000
Place of implementation	Guba - Russia
Potential markets	Local and foreign markets
Legal status	Join-stock company
Additional Information	State guarantee can be given for financing of the project. Initial calculations regarding the project have been made.

BRIEF INFORMATION
on the Investment Project

Code of the project	I023
Field of activity	Energetics
Project title	Reconstruction of dispatcher-control point
Project description	Replacement of the old equipment with modern one, increasing the level of exploitation [technical and operational level] of high voltage transmission net of Azerbaijan power system.
Required investment (in USD)	20 000 000
Place of implementation	Baku
Potential markets	Local market
Legal status	Join-stock company
Additional Information	State guarantee can be given for financing of the project. Initial calculations regarding the project have been made.
Code of the project	I024
Field of activity	Highways
Project title	Reconstruction of Kurdamir-Ujar highway
Project description	Reconstructing Kurdamir-Ujar highway (46.2 km), which is a road passing across Azerbaijan part of the "Silk Way", and improving it according to the international standards.
Required investment (in USD)	18 600 000
Place of implementation	Kurdamir-Ujar
Potential markets	The countries using the "Silk Way"
Legal status	State organization
Additional Information	The Intention Protocol has been presented. Feasibility study on the project has been prepared.

BRIEF INFORMATION
on the Investment Project

Code of the project	I025
Field of activity	Energetics
Project title	Construction of 220 KVt "Sheki" power substation
Project description	Construction of a 220 kvT Sheki power substation that has two 125 Mvt autotransformers, in order to improve electric power supply to Sheki-Balaken area. The new 220 Kvt power substation will be placed at a distance of 6-10 km from 110 kilowatt Sheki power substation. The new 220 kilowatt power substation must be connected with the existing 110 Kvt network.
Required investment (in USD)	18 000 000
Place of implementation	Sheki-Balaken regions
Potential markets	Population of Sheki-Balaken area
Legal status	State organization
Additional Information	State guarantee can be given for financing of the project.
Code of the project	I026
Field of activity	Infrastructure
Project title	Construction of Julfa (Azerbaijan) - Julfa (Iran) gas pipeline
Project description	Import of 300 - 350 mln.m3 from Iran and building a new gas pipeline within the Republic to meet the needs of Nakhchivan Autonomous Republic.
Required investment (in USD)	18 000 000
Place of implementation	Nakhchivan Autonomous Republic
Potential markets	Local market
Legal status	Joint-Stock Company
Additional Information	The main purpose of building the pipeline is to reconstruct the major pipeline which plays an important role in gas transportation system of the Republic of Azerbaijan and makes possible gas transportation from Julfa. State guarantee can be given for financing of the project. Initial calculations on the project have been made.

BRIEF INFORMATION
on the Investment Project

Code of the project	I027
Field of activity	Highways
Project title	Reconstruction of Salyan - Shorsulu highway
Project description	Restoration and reconstruction of the state boundary highway
Required investment (in USD)	18 000 000
Place of implementation	Salyan - Shorsulu
Potential markets	Local market

Legal status Joint-Stock Company

Additional Information

State guarantee can be given for financing of the project. Initial calculations on the project have been made.

Code of the project I028

Field of activity Melioration and irrigation

Project title Treatment of Absheron lakes

Project description Desiccation of the lakelets located between Sumgayit and Hovsan, carrying out land reclamationplanting of greenery in the territory.

Required investment (in USD) 15 000 000

Place of implementation Absheron region

Potential markets Local market

Legal status State Executive Body

Additional Information Initial calculations have been made, participation in the tender is possible.

BRIEF INFORMATION
on the Investment Project

Code of the project	I029
Field of activity	Energetics
Project title	Construction of 330 Kvt Khachmaz power substation
Project description	Construction of 330 Kvt Khachmaz power substation in order to improve power supply to Khachmaz region. The substation must be connected with the system through 330 Kvt power transmission lines that are connected with Yashma and Derbend substations (installation of 1 km (2 x 0.5 km) new line is required). The new substation will be placed at the distance of 10 km from existing 110 Kvt Khachmaz substation, that is located close to Samur-Davachi Canal.

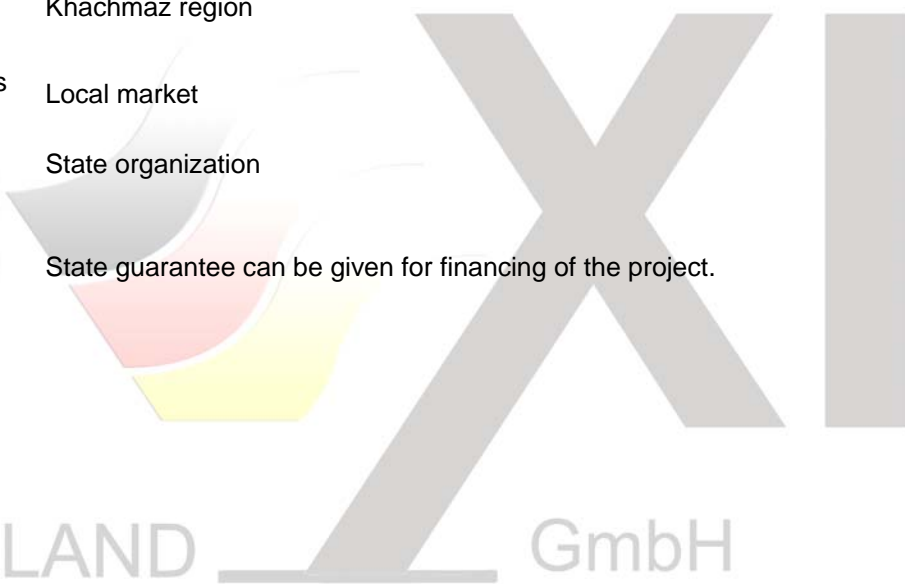

Required investment (in USD)	15 000 000
------------------------------	------------

Place of implementation	Khachmaz region
-------------------------	-----------------

Potential markets	Local market
-------------------	--------------

Legal status	State organization
--------------	--------------------

Additional Information	State guarantee can be given for financing of the project.
------------------------	--

BRIEF INFORMATION
on the Investment Project

Code of the project	I030
Field of activity	Highways
Project title	Reconstruction of Gazakh-Georgia highway
Project description	Ensuring improvement of the road included in the "Silk Way" and its reconstruction according to the international standards. The length of the road is 37.9 km
Required investment (in USD)	14 600 000
Place of implementation	Gazakh region
Potential markets	The countries using the "Silk Way"

Legal status State organization

Additional Information

Feasibility study is being prepared.
State guarantee can be given for financing of the project.

DEUTSCHLAND  GmbH

BRIEF INFORMATION
on the Investment Project

Code of the project I031

Field of activity Environmental protection

Project title Environmental protection in rural areas

Project description Creating Shahdag National Park in the north-east part of Azerbaijan and Shahbuz and Ordubad National Parks in Nachchivan Autonomous Republic; improving ecological management in these areas; developing ecotourism; supporting development of traditional types of folk art; increasing employment level of local population; decreasing anthropological impact on forests by applying alternative fuel types.

Required investment (in USD) 14 000 000

Place of implementation North-east part of Azerbaijan and Nachchivan Autonomous Republic

Potential markets Local market

Legal status State Executive Body

Additional Information State guarante can be given for financing of the project.

Code of the project I032

Field of activity Melioration and irrigation

Project title Planting forest at the coastal zone of the Caspian Sea

Project description Preventing degradation and desertification at the coastal zone through planting works on 2400 hectares area.

Required investment (in USD) 12 800 000

Place of implementation The Republic of Azerbaijan

Potential markets Local market

Legal status State Executive Body

Additional Information The initial calculations have made, participation in the tender is possible

BRIEF INFORMATION
on the Investment Project

Code of the project	I033
Field of activity	Highways
Project title	Reconstruction of Baku - H.Z.Tagiyev settlement highway
Project description	Restoration and reconstruction of the state boundary highway.
Required investment (in USD)	12 000 000
Place of implementation	Baku - H.Z.Tagiyev
Potential markets	Local market

Legal status Join-stock company

Additional Information Initial calculations with regard to the project have been made.
State guarantee can be given for financing of the project.

Code of the project I034

Field of activity Melioration and Irrigation

Project title Construction of Tovuzchay water reservoir (continuation)

Project description Proceeding construction of the reservoir with 20 000 000 m3 capacity, improving water supply of population to meet the needs, ensuring irrigation of 2600 hectare area.

Required investment (in USD) 10 187 347

Place of implementation Tovuz region

Potential markets Local market

Legal status State Executive Body

Additional Information Initial economic calculations with regard to the project have been made.
State guarantee can be given for financing of the project.

BRIEF INFORMATION
on the Investment Project

Code of the project	I035
Field of activity	Electroenergetics
Project title	Reconstruction of 4 gas turbines with (total capacity 64 MWt) to switch from use of diesel to gas.
Project description	Reconstructing the existing turbines and their exploitation with gas. In the result of realization of the project, capacity of the electric energy sources in Nakhchivan Autonomous Republic, will be increased and volume of imported energy will be decreased.
Required investment (in USD)	10 000 000
Place of implementation	Nakhchivan Autonomous Republic
Potential markets	Population of Nakhchivan Autonomous Republic
Legal status	State organization
Additional Information	4 electric power station running on diesel-fired gas turbines (total capacity is 64 MWt) have been presently built in Nakhchivan Autonomous Republic but they do not function due to the lack of fuel. The project can be realized only after laying a gas pipe line from Islamic Republic of Iran to Nakhchivan Autonomous Republic. State guarantee for financing of the project may be provided by the Government of Azerbaijan.
Code of the project	I036
Field of activity	Electroenergetics
Project title	Construction of 220 Kvt "Salyan" substation
Project description	Improving power supply in North - West region, decreasing technical loss, increasing reliability and voltage.
Required investment (in USD)	8 000 000
Place of implementation	Salyan
Potential markets	Local market
Legal status	State organization
Additional Information	State guarantee can be given for financing of the project. Basic economic calculations on the project have been made.

BRIEF INFORMATION
on the Investment Project

Code of the project	I037
Field of activity	Environmental protection
Project title	The delta of Kur river
Project description	Deepening and widening the main course of Kur river at the lower flow by treating it from settlements; ensuring removal of sturgeons and other fishes to spawning spots; ensuring access of sturgeon-calves to be produced at Neftchala fish-farming plant, which is under construction, to the Caspian Sea; decreasing frequency of floods in Kur river and the level of salinization process at the coastal zone; setting up enabling condition for development of navigation; create a protected territory in the delta of Kur for habitat water and bog birds and valuable representatives of fauna; preventing illegal fishery by increasing the employment level among the local population and developing ecotourism

Required investment (in USD)	7 000 000
------------------------------	-----------

Place of implementation	Neftchala
-------------------------	-----------

Potential markets	Local market and neighbouring countries
-------------------	---

Legal status	State Executive Body
--------------	----------------------

Additional Information	State guarantee can be given for financing of the project.
------------------------	--

BRIEF INFORMATION
on the Investment Project

Code of the project	I038
Field of activity	Transport
Project title	Construction of border bridge over Samur river
Project description	Meeting the need of construction of a new bridge over the Samur river, since the existing river does not meet the modern requirements. Ensuring normal transport lines with Russia.
Required investment (in USD)	5 000 000
Place of implementation	Qusar Region
Potential markets	Local and foreign markets
Legal status	Join-stock company
Additional Information	Initial calculations with regard to the project have been made. The executor and the project owner will be determined by tender. State guarantee can be given for financing of the project.
Code of the project	I039
Field of activity	Energetics
Project title	Construction of the second electric circuit of the new 330-400 Kvt Imishli (Azerbaijan) Parsabat (Iran) electricity line.
Project description	Increase of electric energy exchange between Azerbaijan and Iran, and construction of the second line from the existing Imishli - Parsabat single circuit electricity line.
Required investment (in USD)	3 500 000
Place of implementation	Imishli and Parsabat (Iran) regions
Potential markets	Local and foreign market
Legal status	Join-stock company
Additional Information	Initial calculations with regard to the project have been made. The executor and the project owner will be determined by tender. State guarantee can be given for financing of the project.

BRIEF INFORMATION
on the Investment Project

Code of the project	I040
Field of activity	Highways
Project title	Construction of a Shakhtakhti - Poldast and Julfa bridge over Araz river
Project description	Replacement of the existing bridges with new ones (with stanchions) meeting the modern standards.
Required investment (in USD)	3 000 000
Place of implementation	Shakhtakhti - Poldast and Djulfa
Potential markets	Local market

Legal status Join-stock company

Additional Information The bridge at Shakhtakhti customs point, is of "Panton" type bridge and is not suitable for passage. Initial calculations have been made and state guarantee for the project can be given.

Code of the project I041

Field of activity Melioration and Irrigation

Project title Shamkir water canal

Project description Construction of a water canal, intended to use water from Ganjachay, Shamkirchay and Garasu rivers for irrigation of agricultural lands, is planned according to the project.

Required investment (in USD) 2 323 000

Place of implementation Shamkir, Samukh, and Goranboy

Potential markets Local market

Legal status State Executive Body

Additional Information The overall capacity of the canal can completely meet the needs for water supply in Shamkir, Samukh and Goranboy regions. The Government of Azerbaijan may give guarantee for financing of the project.

BRIEF INFORMATION
on the Investment Project

Code of the project I042

Field of activity Highways

Project title Construction of Julfa - Ordubad highway

Project description Reconstruction of the highway

Required investment (in USD) Calculations have not been made

Place of implementation Julfa - Ordubad

Potential markets Local market

Legal status Join-stock company

Additional Information 36 km long Julfa - Ordubad road is a constituent part of the "Silk Way" transport corridor and plays a role of exit for Nakhchivan Autonomous Republic to the West through Turkey.
Initial calculations with regard to the project have been made.
State guarantee can be given.

Code of the project I043

Field of activity Railway

Project title Construction of Astara (Azerbaijan) - Astara (Iran) railway bridge

Project description Construction of a new railway line and boundary station, reinforced concrete bridge over the Astara river.

Required investment (in USD) Calculations have not been made.

Place of implementation Astara

Potential markets Local and foreign markets

Legal status State Executive Body

Additional Information Initial technical and economic calculations with regard to the project have been made and state guarantee can be given for financing of the project.
